

Black Sheriff Says if Black Lives Mattered, They'd Protest at Abortion Clinics

CNN's Poppy Harlow interviewed Milwaukee Sheriff David Clarke about the recent protests that some in the Black Community have sparked after the police related deaths of Michael Brown and Eric Garner.

Harlow asked the Sheriff, who has been on several news shows on Fox and others, about a tweet he sent out implying that if Black lives mattered the protesters would be outside abortion clinics because of the high numbers of black babies killed by abortion.

The tweet sent by Sheriff Clarke, a black man himself, was sent to Mitch Smith, Journalist in the Chicago bureau of The New York Times and read, "If only these faux protesters were asked by media about all the black on

black killing or black babies aborted in US every year."

Poppy asked the Sheriff if he sent the tweet, "Yes I did," Sheriff Clark responded.

He continued, "When I hear these things that Black lives matter, the only people who really believe that statement are American police officers who go into American ghettos every day to keep people from killing each other. Alright, so, yes I did say that and I meant it. Look, the abortions? If Black lives – if they really mattered, that's where the outrage would be; that's where we'd see protests..."

This blog has proven time and again that abortion targets the Black community. [Stats released by the CDC](#) again prove that minorities are killed by abortion in disproportionate numbers. In fact, according to the most

recent [numbers](#), 36.2% of the total number of abortions recorded for race or ethnicity were reported on Black women.

Mississippi, which currently has only one abortion clinic in the state, had the highest number of abortions reported on Black women coming in at 63.4%.

Alabama, reported that 58.7% of their abortions were on Blacks while in Georgia they reported 52.1% abortions on Black.

Tennessee performed 49.9% of their abortions on Black women and Virginia performed 43.9% on Black women, while Michigan's Black abortion percentage was 47.9%.

New York City alone performed 46.1% of their abortions on Black women and 41.1% of Black abortions was reported in Missouri.

It is a known fact that a majority of abortions are performed by Planned Parenthood.

Despite their founder's [link](#) to the Klan and the racist eugenics movement, not one protest from the *Black Lives Matter* movement led by abortion advocates like [Rev. Al Sharpton](#) has been organized outside Planned Parenthood. Even when [Planned Parenthood left a 24-](#)

[year-old Black woman bleeding to death in their Chicago clinic](#), Sharpton said nothing. That woman's name was [Tonya Reaves](#) and the only protests on her behalf were organized by black leaders within the pro-life movement.

So that begs the question, initiated by Sheriff Clark, if *Black Lives Matter*, and they certainly do, why is it that the one place known for killing off black babies and a black woman is not being protested?
